

Protective vest and skirt **PRIMAX** soft

The two-piece wrap around protection, consisting of vest and skirt is an ideal selection for radiological procedures which require personal protection for extended period. This combination guarantees more mobility with division of weight on shoulder and hips.

Protective Vest *Primax soft*

- weight is optimally divided between the shoulders and hips
- 0.25 or 0.35 mm LE (back) / 0.50 mm LE (front)
- individual fixing by three horizontal Velcro closures in the front part, shoulder padding
- available in different sizes and lengths
- standard colour – Royal blue, other colours on request
